Welcome

Welcome to The Emerald City for the 99th Annual Conference of the Western Economic Association International

We encourage you to take full advantage of all the opportunities to share your research, learn what your colleagues are working on, and expand your network. There are many activities that allow you to engage with colleagues from academia, government, consulting, and foundations. Not only are there formal activities of both virtual and in-person sessions, you are also invited to participate in the informal gatherings such as the cruise, Presidential Luncheon and research gatherings in the lounge areas.

We are confident you will have a rewarding professional and personal experience. Your active participation in the conference is the foundation to move the profession forward toward a more complete understanding of the complexities of the challenges facing the world today.

We look forward to an exciting and dynamic conference!

Institutional Membership Benefits and Objectives

For academic institutions, research, government, and other organizations that share WEAI's educational objectives

Benefits to Institutions

Recognition. Institutional Members are listed prominently on WEAI's website, in conference programs, in a display at the Annual and International Conferences, and in all relevant marketing materials.

Designated Representatives. Each Institutional Member chooses one to five designated representatives—depending on membership category—to help maintain liaison between its affiliates and WEAI. These representatives receive complimentary Annual and International Conference registration, as well as online subscriptions to both journals and all other benefits accorded to individual members.

Job Market. Institutional Members may use WEAI's e-newsletter or website without charge to advertise job openings for economists.

Gift Memberships. Academic Institutional Members can congratulate new MA/MS and PhD graduates with a complimentary online one-year WEAI membership.

Benefits to Affiliated Economists

20 percent discount on Annual and International Conference fees and journal manuscript submission fees.

Complimentary conference registration for Annual and International Conference session organizers who are WEAI members.

Benefits to Students

20 percent discount for individual students compared to regular student dues and conference fees.

Graduate Student Workshop is open to students of Institutional Member universities. Academic and Sustaining may nominate two students; Supporting, three students; Sponsoring, five.

Undergraduate Student Research Program is available only to Institutional Member universities, outstanding undergraduate economists may be selected to present their research in a special undergraduate research session on the Annual Conference program with prizes awarded for best paper plus three finalists.

[164] REPRODUCIBILITY FROM DAY 1 TO DAY T

Presenter: Lars Vilhuber, Cornell University and AEA Data Editor

Journals require that you share your code and data in a replication package upon acceptance. However, efficient reproducibility starts at the beginning of the research project. Following some best practices from day 1 can not only help you prepare a replication package later, but also make you a more productive researcher. In this workshop, we start with an empty folder and pursue an initial research idea using reproducible practices, ending with a mini-project ready for submission to a journal. We also discuss techniques on how to self-verify reproducibility at any point of the research lifecycle, but in particular on the Day T of final submission to a journal.

**Submit Your Paper
to CEP or EI for**

FREE!

After incorporating the feedback you receive at the conference, you are invited to submit your revised conference paper for possible publication in either *Contemporary Economic Policy* or *Economic Inquiry* for FREE, provided you submit by December 31, 2024, and are a current or newly joining WEAI member.

CEP publishes scholarly research and analysis on public policy issues of vital concern to government, business, and other decision makers. A principal objective is to present high quality economic analysis in a language accessible to policymakers and other non-specialists without compromising analytic rigor.

EI publishes articles dealing with all topic areas of economics. The primary objective is to make each article understandable to economists who are not necessarily specialists in the article's topic area.

If you feel that your conference paper is ready for serious review for possible publication, we encourage you to submit!

Visit weai.org for more information. Presenters will receive an email after the conference with further details.

A vibrant photograph of the Golden Gate Bridge in San Francisco. The bridge's iconic orange-red towers and suspension cables are set against a clear blue sky. In the foreground, white, frothy waves are crashing against dark rocks, creating a dynamic and energetic scene. The bridge extends from the left side of the frame towards the right, where another tower is visible in the distance.
